Starmaster	WorksRx Needs Atari	emumovies	Ressurectionx	One of my twortle games as a kid. It's basicably like a simplified Star Raiders - choose an enerty colority, way there and short the ray out of them, choose another location etc. Dock at a starbase now and then for repairs & energy. You need to may the ColorMV switch to a button so that you can access the Galactic Chart screen (the emu doesn't seem to use this which property, bit it is usable/aple/aple by doing this. The difficulty emittings seem to accomptish this even better, even though they aren't supposed to jEx.

RightLeft" and then turn the 1st player controller counter clockwise 90
degrees to control up and down motion. 2nd player controller then control
right and left montion by pressing right or left. ~Rx | | | | | | | | | |
