Alphabet Zoo	Works. ~Rx	emumovies	Gilles9999		This game might not work right. Every time you get a letter that's in the picture name, the name of the picture (ex: DICE) shows up for a few seconds but the other letters never show up. For example, every time you grab the D it shows up somewhere else in the maze and you never get other letters of the word to show up. ~Rx			
Amazing Bumpman	Works. ~Rx	emumovies	Gilles9999		I don't think you can die on this unless I just didn't get far enough. Break all of the bonds on any wall of your choice to have the row fall down and a new one show up on the opposite end. Move the white numbers until they overlap the green numbers. Would probably be fun if there were a time limit and enemies, but it doesn't seem like you can die on this. ~Rx / No remapping necessary. ~Rx / NO BOXART AVALIABLE. ~Rx
